# Cybersecurity Strategy Service

*Planning Ahead to Secure Your Assets  
from Evolving Cyber Threats*

## The Need

The number of security breaches is not only increasing in number, but also in severity, leaving organizations exposed and liable for resulting violations. As such, cybersecurity has become a boardroom-level issue. Organizations need to strategically and methodically think ahead in order to preempt attacks and remain protected from today's ever-evolving cyber threats.

## The Solution

Holisticyber's Cybersecurity Strategy Services deliver a proactive defense program to mitigate evolving multi-staged attacks. Our nation-state expertise provides your organization with a resilient and sustainable program to improve your security posture and security controls along with preemptive countermeasures for new and dynamic cyber threats.

## What to Expect

- We will conduct a business impact analysis along with threat modeling and a risk assessment
- We will build the organization's cyber defense matrix and a strategy roadmap report
- The end result will be a holistic cybersecurity strategic plan that includes a tailor-made multi-year cyber defense strategy Road map
